Demographic Summary

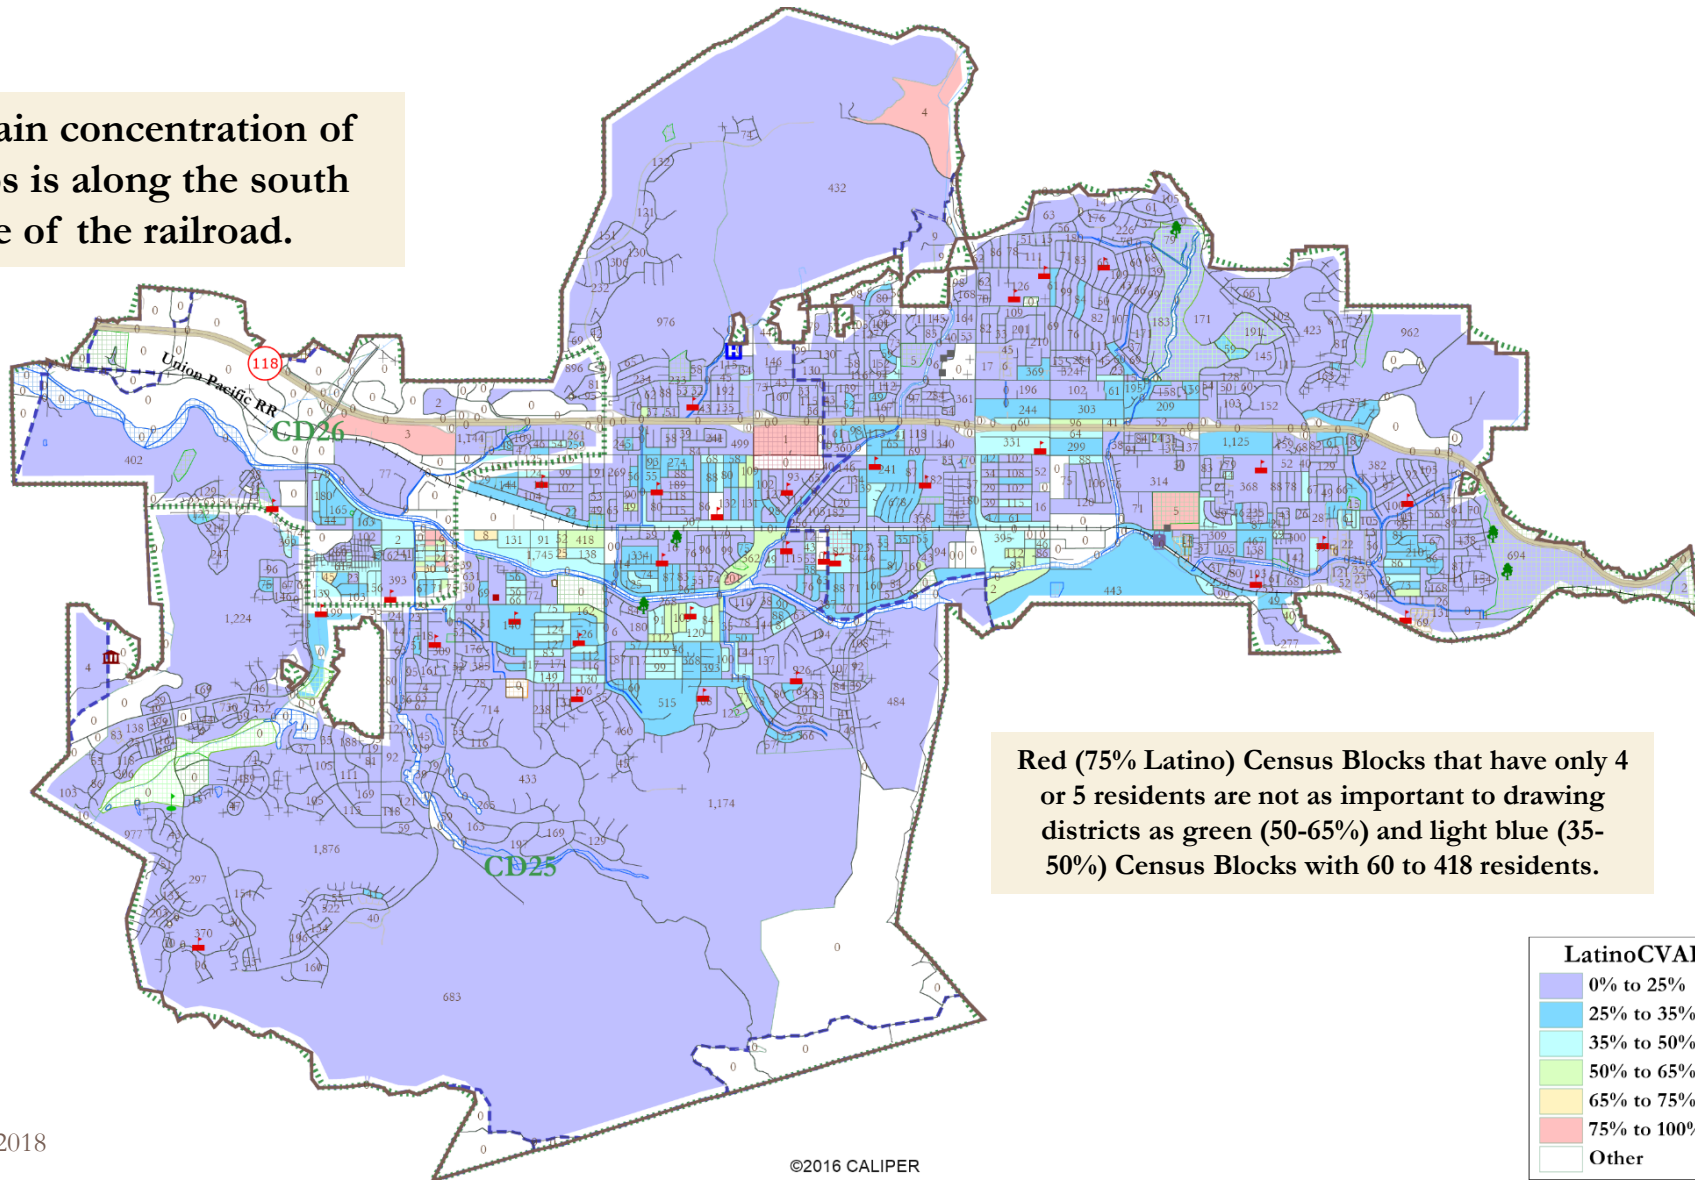

Each of four Council districts, if that is the system kept, would have about 31,059 residents. Each of five districts would have about 24,847. Each of six districts would have about 20,706.

All of these data categories can be mapped.

Latino CVAP

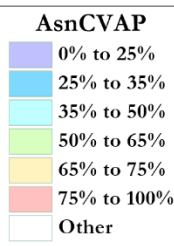

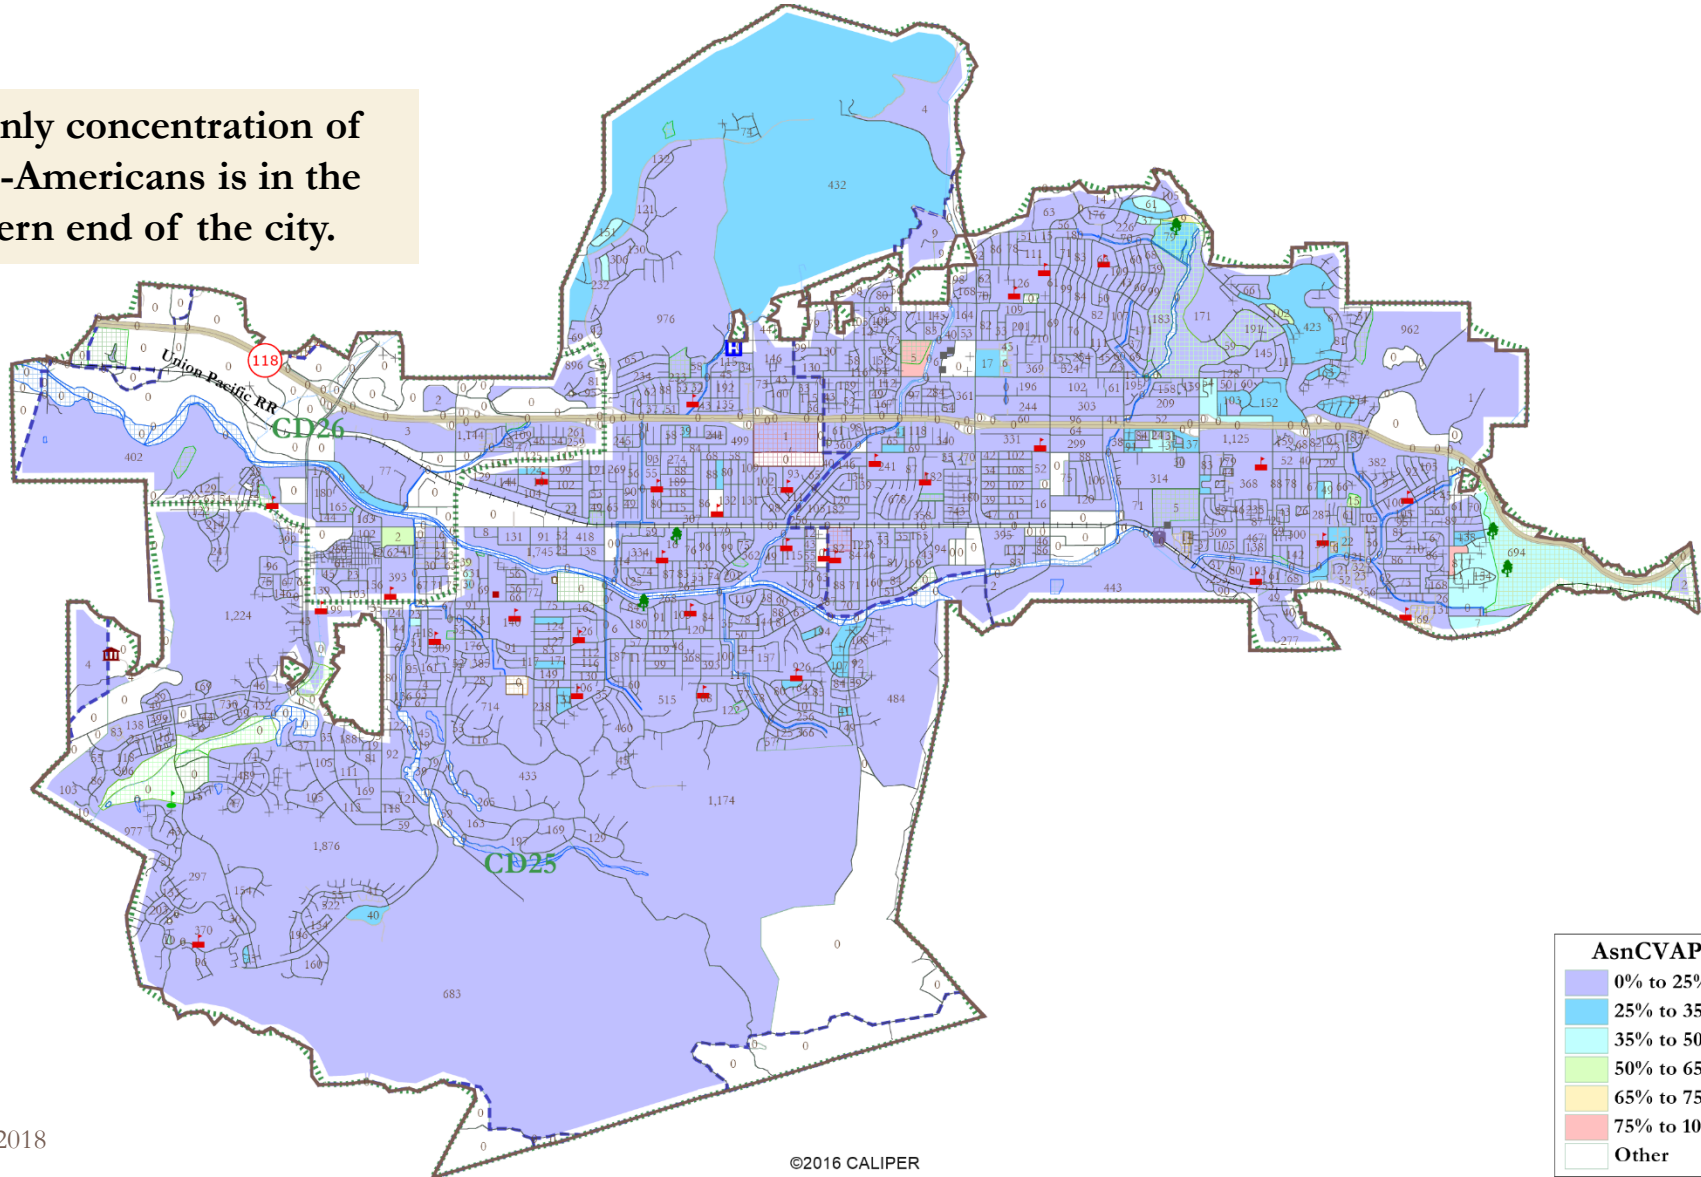

The main concentration of Latinos is along the south side of the railroad.

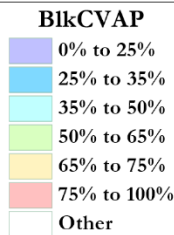

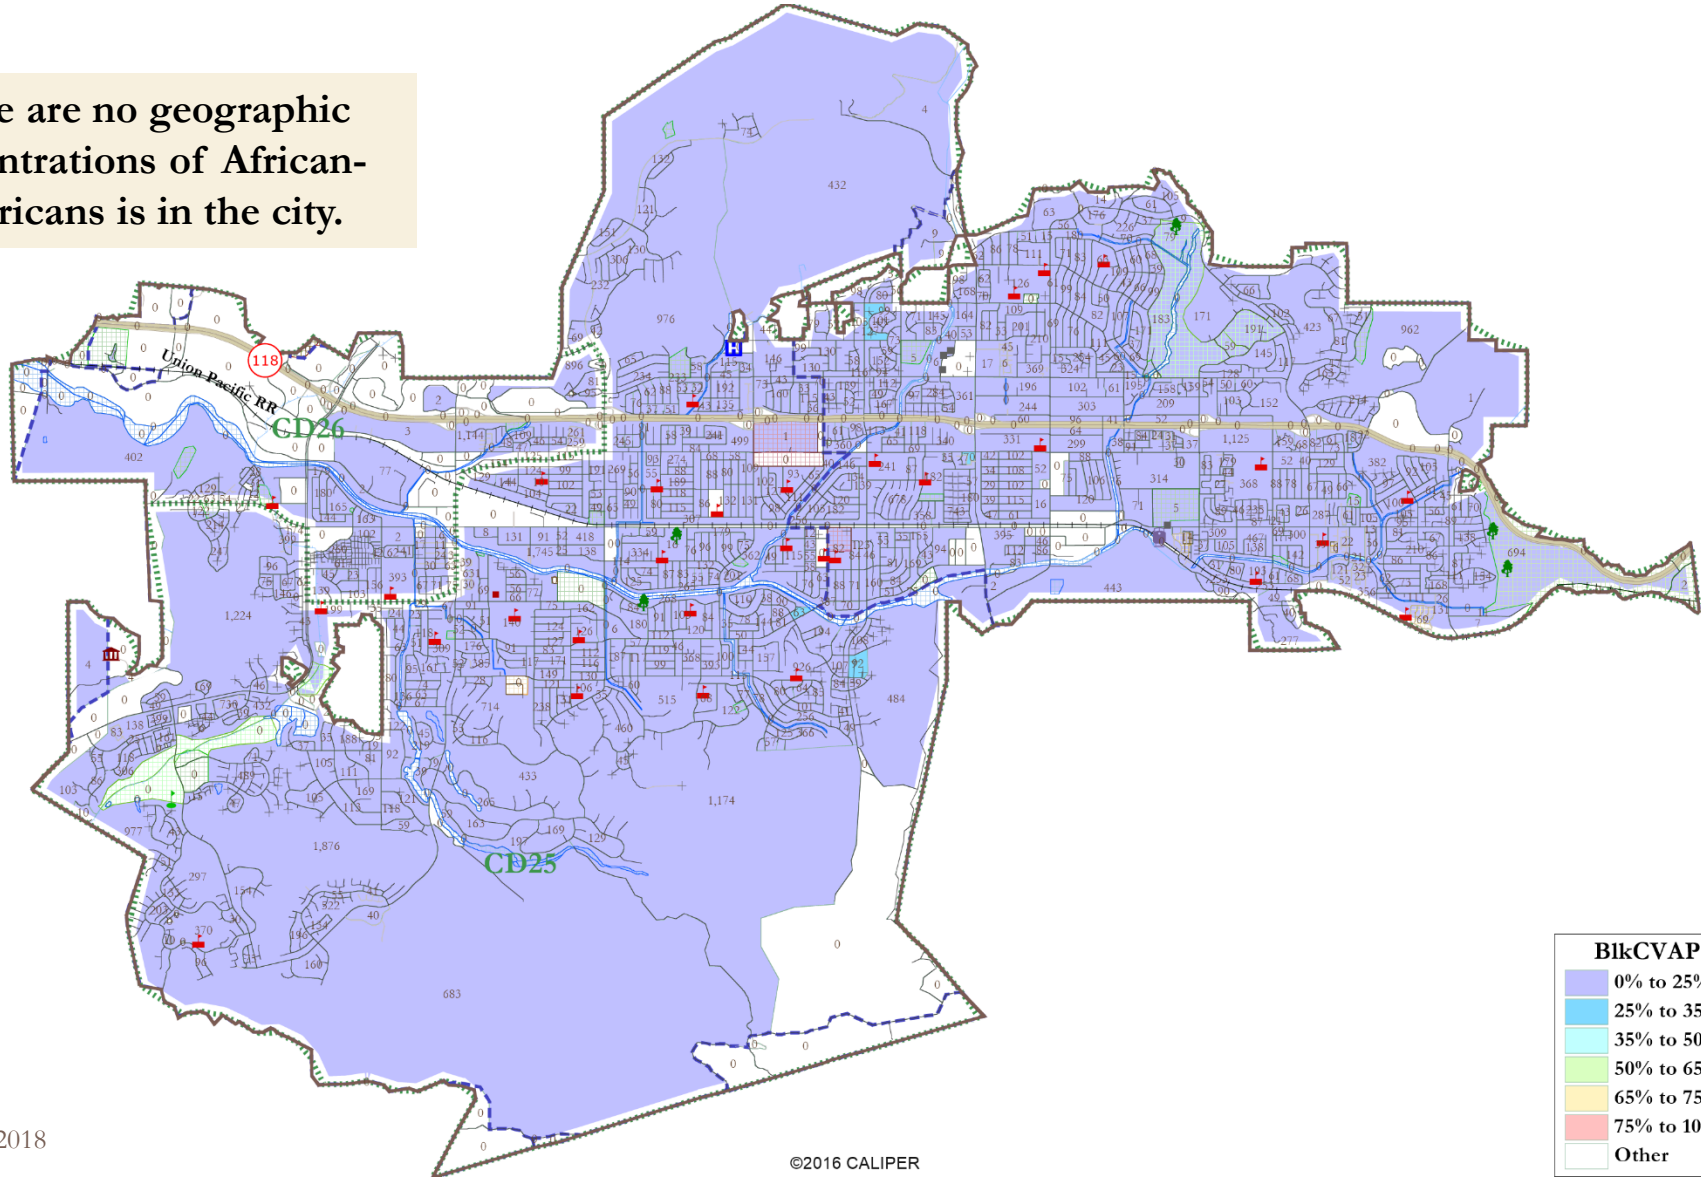

Red (75% Latino) Census Blocks that have only 4 or 5 residents are not as important to drawing districts as green (50-65%) and light blue (35-50%) Census Blocks with 60 to 418 residents.

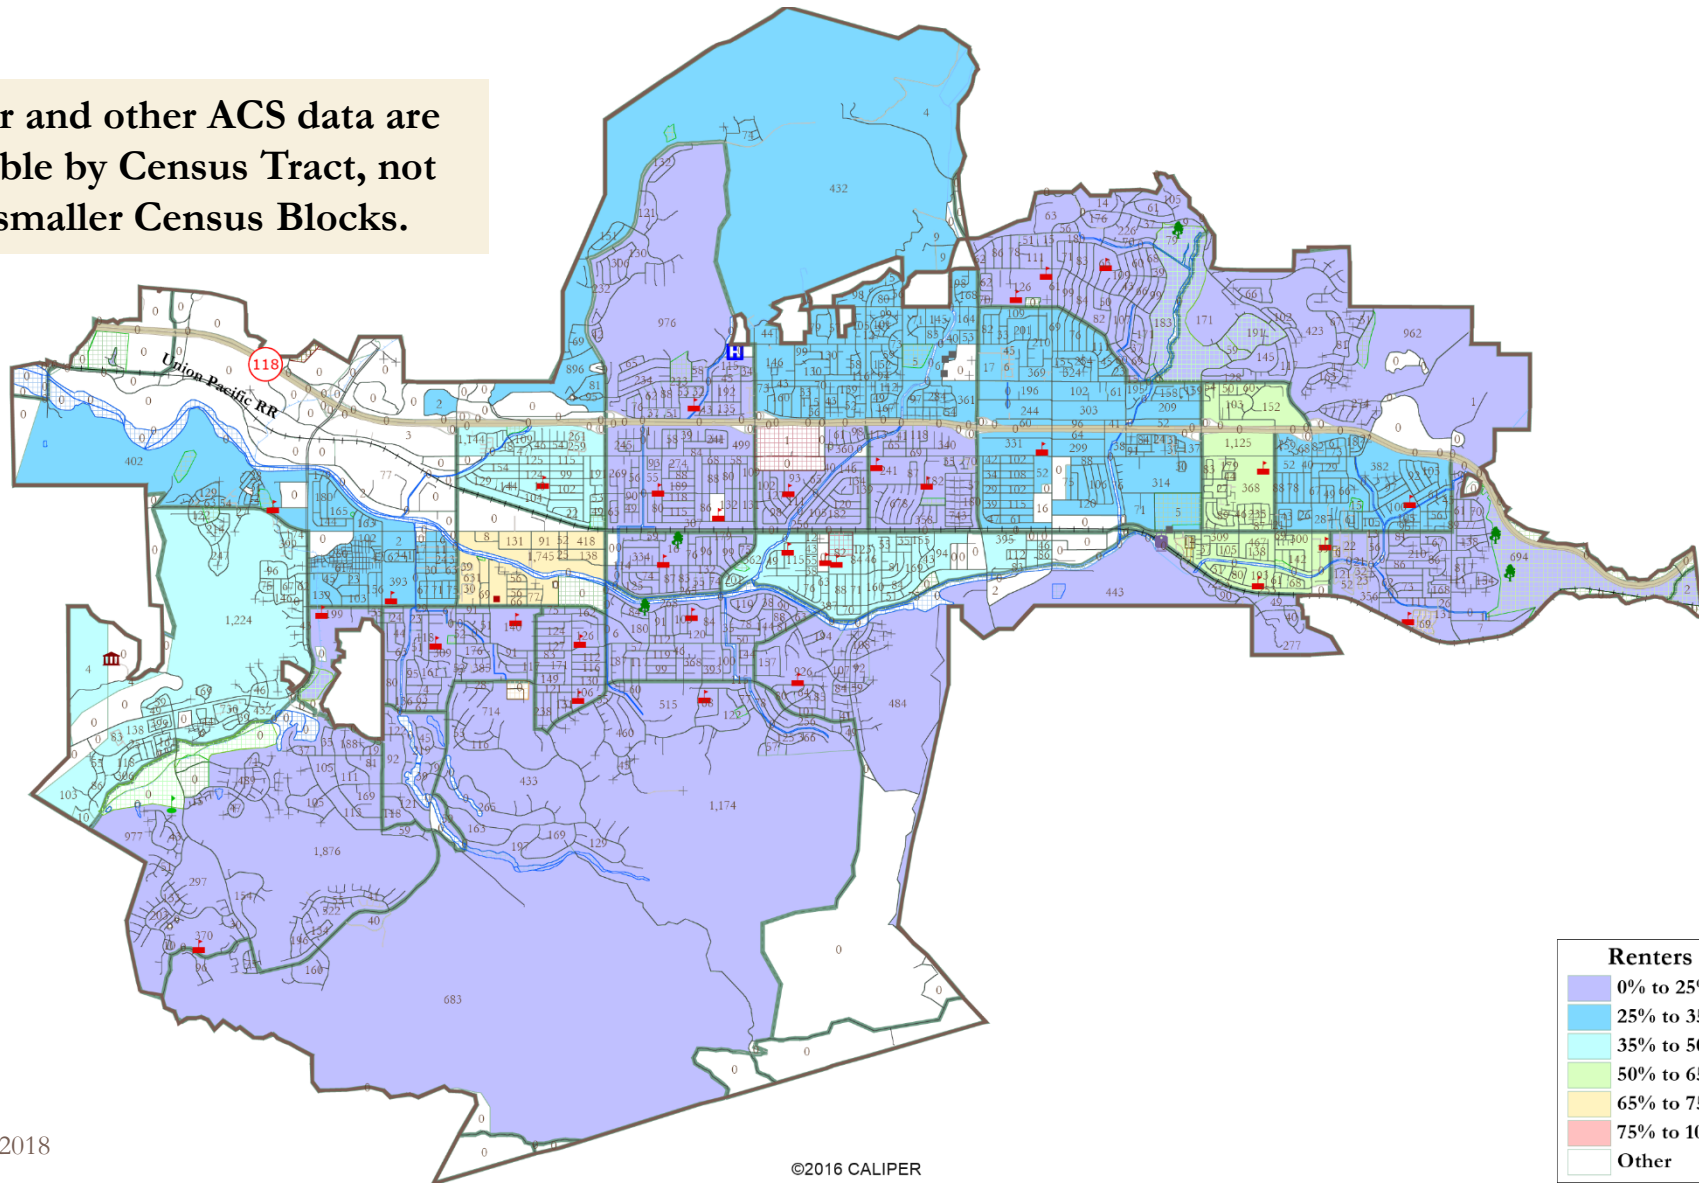

The only concentration of Asian-Americans is in the eastern end of the city.

There are no geographic concentrations of African-Americans in the city.

Renter and other ACS data are available by Census Tract, not the smaller Census Blocks.

Defining Communities of Interest

8

1st Question: what is your neighborhood or community of interest?

A Community of Interest is generally defined as a neighborhood or community of shared interests, views, problems, or characteristics.

Possible community feature/boundary definitions include:

- ❑ School attendance areas
- ❑ Natural neighborhood dividing lines, such as highway or major roads, rivers, canals, and/or hills
- ❑ Areas around parks and other neighborhood landmarks
- ❑ Common issues, neighborhood activities, or legislative/election concerns
- ❑ Shared demographic characteristics
 - ▣ Such as similar levels of income, education, or linguistic isolation

2nd Question: Does a Community of Interest want to be united in one district, or to be divided to have a voice in multiple elections?

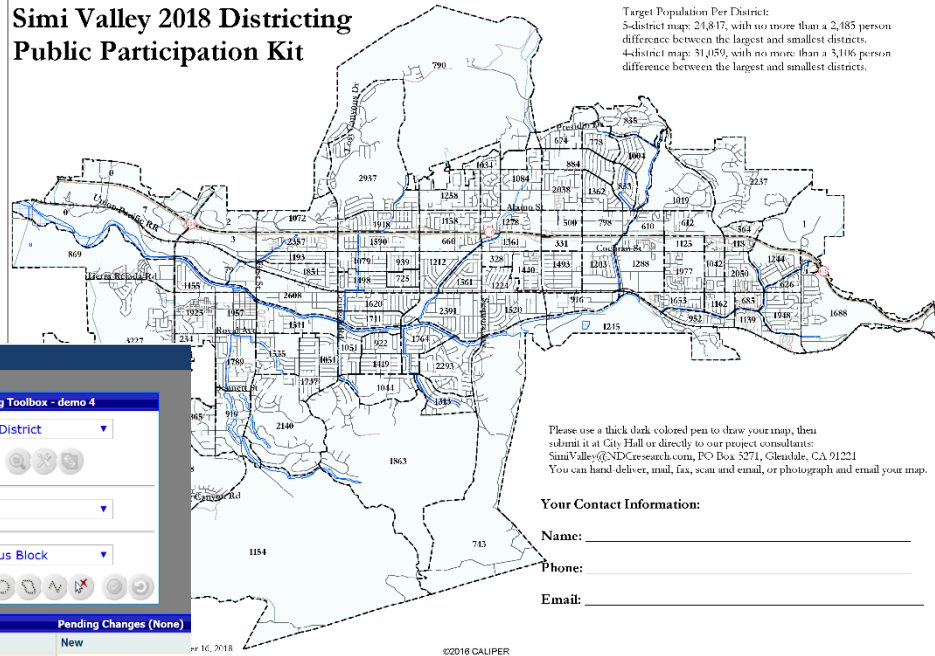

Map-Drawing Tools

9

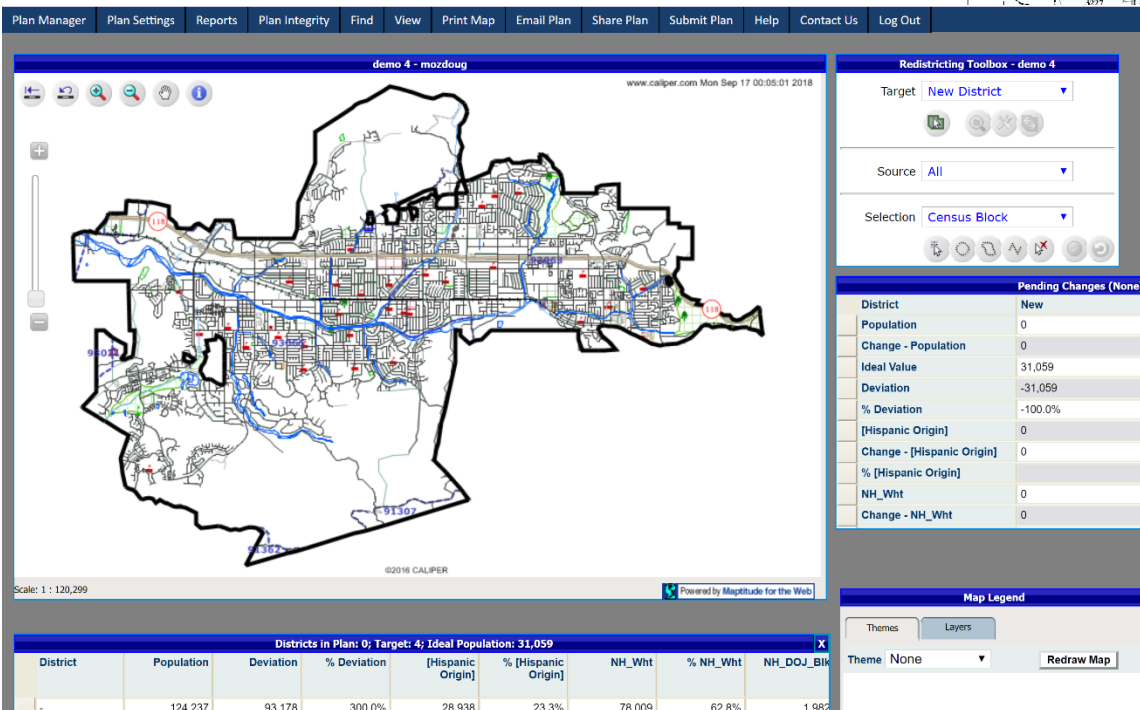

- Use the paper map, the online tool, or any other map.
- Draw your neighborhood; draw the district you want for your area; or draw an entire citywide map.

Discussion

13

1. What are the boundaries of your neighborhood or “community of interest”?
2. Do you want your neighborhood united in one district, or with multiple Councilmembers elected from it?
3. What neighborhoods do you think make sense to be with your neighborhood in a district or districts because of common city issues?
4. What other “communities of interest” do you see in the City?
5. Any questions about any of the map-drawing tools?
