

**Key considerations:**

No Councilmember’s current term (starting after the 2016 or 2018 elections) can be cut short.

The Council must immediately get to the desired size, then start alternating elections in 2022 by using two-year terms for some 2020 election seats.

The first consideration is leaving decisions in the hands of the voters by assigning solo-Councilmember-districts to that Councilmember’s election year. Then priority can be given to putting low-turnout districts in Presidential election years; ensuring different regions each have an election in a given year; or other local factors.
