

Save the Date

“CERT Expo”

**Saturday, November 6, 2010:
0800-1700 Hours**

CERT Graduates (individuals who have completed all seven CERT training modules AND have received a CERT certificate) are invited to attend this innovative training day

Training Opportunities will include:

- ICS – This 1 hour class will review the Incident Command System and will show where and how CERT members fall in the command system.
- Sand Bags – This 1 hour class will teach the proper filling, placement, and use of this versatile tool.
- Fire Extinguishers – This 1 hour class will review the proper use and tactics of the portable fire extinguisher when extinguishing a “Live Fire”.
- The Main Scenario – This 3 hour “Real Life Drill” will cover Search & Rescue, Triage, and Treatment. You will be placed in a real time emergency scene and have to use your CERT skills to work as a team to mitigate and manage the incident.
- Cribbing – This 2 hour class will review your heavy lifting and cribbing skills. Whether lifting slabs of concrete or file cabinets, this class will help you think “outside the box.”
- Traffic – This 1 hour class will help CERT members be aware of their personal safety and surroundings as they learn how to effectively control traffic at an incident.
- Communications – This 1 hour class will teach the proper use of verbal communications and the many types of radios and radio equipment used in emergencies. (Licensed Amateur Radio Operators, please bring your radio)

**Open to the first 250 registrants on a first-come-first-served basis.
This is an adult disaster preparedness event. No children please.
Event volunteers and disaster victims are needed (children okay).**

**For questions or to volunteer, contact your local CERT Coordinator or
Ventura County Fire Department
CERT Program Administrator at 805-389-9710.**
